FRENCH IMMERSION PROGRAM IN METZ, FRANCE

Take one or more intermediate or advanced French courses and you'll receive all the perks of the French program, including living in a French-speaking dorm and experiential learning with a focus on sustainability. Explore the region with guided visits and excursions, all in French, of course! Three-day weekends for independent travel in France and beyond.

	Take 1 French course or more beyond FREN 1002 to participate in the program	
	Students will be housed in a "French Immersion" dorm and take part in program-specific visits and excursions	
	Intermediate French: (2001 or 2813) and **Advanced French:** 3xxx-level courses.	**Credits**
FREN 2001	**Patterns of French Culture I (Intermediate French 1):** Proficiency-based intro to selected sociocultural aspects of France: geography, demography, social institutions, history, art, socioeconomic problems, and current events. Course to include grammar review.	3
FREN 2813 FREN 3813	**French Practicum (Communication for Today's Technologies):** Individualized review of French immersion for everyday life with projects in Metz. Learn about French for social networks and professions. Students will be matched with native speakers for personalized tutoring and conversation practice. Project for FREN 3813. Progress will be tracked and measured.	3
FREN 3120	**French Conversation:** Course combines discussion of current events with conversation practice. Students will participate in in-class discussion and debates as well as language exchange experiences with French university students or families.	3
FREN 3011	**France Today I (Sustainable Communities in France):** This course focuses on social, cultural, and scientific dimensions of sustainability and the concepts of identity, diversity, social equity and inclusion/exclusion in French society. Course includes field work and group research projects.	3
FREN 3500	**Field Work Abroad (Local Sustainability Practices):** Students have weekly class meetings and complete a service project in local schools, non-profits, NGOs, or businesses. Students' professional interests will be matched with the volunteer site whenever possible.	3
FREN 4695 FREN 4699	With the instructor's permission, students may do an internship or independent study (research).	TBD
Then, choose from over 30 courses in STEM, business, and social sciences taught by Georgia Tech faculty, in English.
